BLOWN INTO ATOMS

The Giant Powder Works at Berkeley

EXPLODE WITH AWFUL RESULTS

More Than a Hundred People Supposed to Have Crossed the Dark River.

SAN FRANCISCO, July 9.—An explosion occurred at the Giant & Gunson powder works near West Berkeley shortly after 9 o'clock this morning, destroying those works and much property for several miles around.

Five shocks were felt in this city within a few minutes, the last four being of terrific force, shaking buildings, cracking a number of walls and breaking plate glass in buildings eight blocks from the water front.

1.15 p.m.—It is now believed that 104 were killed, including three white men, nearly all the men employed in the works being Chinese.

The explosion set the adjoining buildings on fire and owing to the danger of additional explosions no one ventured near the works to stop the progress of the flames.

At the office of the Giant Powder company in this city no details of the explosion are obtainable, the officers of the company having gone to the scene of the calamity.

It was thought, however, that the Judson works, which are located at Lobelle's, about three miles from the Giant works were safe.

The Giant Powder works are located at Point Isabel and Highland, near Stege, and comprise five buildings and three magazines.

Of these buildings the acid and nitro glycerine works are known to have been destroyed, and at least one magazine blown up. Other buildings not immediately destroyed took fire and it is not believed that anything will be saved.

The loss on property will be heavy and it is also believed that there is a great loss of life.

From the top of the hill just above the works the scene beggars description. On the western slope the scattered timbers of the giant powder house blaze furiously, while little yellow streams running down to the bay show where the contents of the acid tanks had emptied themselves.

All mixing and packing houses of the black powder department are in ashes and also the sulphur mill, which buildings were located east of the scene of the explosion and on the opposite side of the hill.

The damage to the black powder works alone will reach $75,000.

The first explosion caused the giant powder magazine to blow up. The shock traveled in an easterly direction, and the black powder mills lay directly in the path, and burning brands were heaped upon the already wrecked buildings.

Before the Chinese employed there could all escape the powder in the black powder mills exploded. Those rescued say 17 Chinese were burned there.

Phil Hickinger was the first wounded man to be taken out through the cordon of guards which had been placed around the works. He was walking within fifty feet of the magazine when it exploded and his escape from death is considered miraculous.

Charles Brown was the only man in the mixing house where the first explosion occurred and it is believed that he was blown to atoms. Brown was considered a very careful man and for that reason was given the most responsible position.

A man named Boice, who had charge of the tanks in the acid house, is believed to be among the killed.

The cause of the explosion is said to have been the upsetting of a bottle of acid in the office, which set fire to that building. Two injured Chinamen were taken out of the ruins at 12:30, and a number who escaped with burns and bruises are huddled near by, but are unable to give any account of the explosion, as they do not speak English.

The damage is estimated to be at least half a million dollars.

Trains passing near the works are compelled to slow up, owing to the damage to the track.

At 1 o'clock this afternoon no one was within a mile of the magazine, and no effort was being made to check the flames.

The five previous explosions were each of less than one hundred tons.

Over 300 tons of giant powder are stored in the large magazine. Everyone is getting as far away as possible.

Five bodies, three being those of white men employed at the works and two Chinese, have been taken to the Oakland morgue and a belief now prevails that this is the number of all those killed at the time of the explosion.

The number of injured has not been definitely ascertained.

Later dispatches from the scene of the explosion show that early reports are greatly exaggerated so far as loss of life was concerned.

Considering the terrific force of the explosion the loss of life is very small. It is believed it was confined to the three white men. Some Chinamen may have been killed, but it is not known positively.

Officers of the Giant Powder company went to the scene soon after the explosion occurred. As they regarded the wreck of every structure they expressed gratification at the small loss of life.

They say it is almost impossible to estimate the loss, but that $200,000 will probably be an outside figure for damage to the powder works.

The San Francisco chemical works, owned by Egbert Judson and J. L. N. Shepard, is almost totally destroyed. Loss not far from $150,000.

Latest reports received this evening from the scene of the explosion at Highlands show that it has been definitely ascertained that five persons lost their lives—the three white employes and two Chinamen.

It is believed that is the extent of the fatalities.

A number of Chinese and several white persons were more or less seriously injured.

It is believed that the damages in this city from breakage of glass will reach $10,000.

The most terrific of the series of explosions were those caused by the blowing up of the powder magazines. Those were situated at a considerable distance from the nitro glycerine houses and were exploded by concussion.

There were three of these repositories and they went up one after the other in quick succession. One contained 350 tons of giant powder, another 150 tons of black powder, and the third held a quantity of dynamite.

The side hill where these were located now bears not a vestage of their occupancy and the place that knew them is represented by a great chasm that extends down below the line of water in the bay.

The actual cause of the explosion will never be known, the only men who could give any information on the subject now are stark, stiff and mutilated in the morgue.

IT DOESN'T SUIT.

Grover Sensibly Objects to the Methods of Sentimentalists.

BUZZARD'S BAY, July 9.—Mrs. Cleveland recently received a letter from Mary Frost Ormsby of New York, informing Mrs. Cleveland of the formation there of a Frances Cleveland Influence club, composed of the wives, sisters and daughters, to do campaign work. The following letter has been sent in reply:

"Gray Gables, July 6th.

"My Dear Madam—Mrs. Cleveland referred to me your letter informing her of the organization of the Frances Cleveland Influence club. It is by no means pleasant to dissent from the methods which friends adopt when their efforts not only demonstrate their friendliness, but when they also seek to subserve public good and therefore engaged patriotic service. It is, however, impossible for us to approve of the use of Mrs. Cleveland's name as the designation of clubs designed to do political work. I trust you will not undervalue our objection because it rests upon the sentiment that the name now sacred in home circles as a wife and mother may well be spared in the organization and operation of clubs created to exert political influence. Yours very truly,

"GROVER CLEVELAND."

STRIKERS SHOT

By a Non Union Brakeman But Not Killed.

BAKERSFIELD, July 9.—Two trainmen, Ed Benson and George Rogers, said to be the leaders of the striking Southern Pacific trainmen, were shot this morning just as the passenger train was leaving the yards for San Francisco by a non-union man named Ackley, who goes by the name of Judge Ackley.

It appears that Ackley did not go out with the strikers and they have been threatening revenge on him ever since. Ackley came to Bakersfield last night as a brakeman and was leaving this morning when Benson and Rogers jumped aboard and got into an altercation with him. Ackley shot Rogers twice in the body and Benson through both arms. It is thought that Rogers' wounds are fatal.

Ackley jumped off the train and took to the brush on Kern river and has not yet been caught, although all strikers, constables and a number of deputy sheriffs are hunting him.

Desperate Convicts Escape.

BOSTON, Mass., July 9.—Nine long-term convicts made their escape from the state prison this afternoon through a sewer, and all but one are now at large. The men had occasion to go into a lot used as a dumping ground, in which there is a man hole leading into a sewer. Having improvised saws, they cut the bars covering the hole and descended to the bottom, and then crawled through the sewer, which is 800 feet in length and hardly three feet in diameter. Every possible effort was made to intercept the fugitives, and one of them was captured after a desperate resistance. Although the surrounding country is being scoured, the others have not yet been captured.

CREWS' STORY

OF HOW HE MURDERED HIS UNCLE.

He Claims That Byrn Was Insanely Jealous of His Wife and Crews.

SANTA ROSA, June 9.—Deputy Sheriffs Fine and Tombs arrived with murderer Crews from Fresno this morning. The train stopped three blocks south of the depot and the murderer taken off and landed into a hack.

Great crowds were standing around the jail, but no demonstration was made.

Later Crews made a statement to press representatives which seems to explain the apparent reluctance of relatives of the murdered man to give Crews over to justice. Crews says the trouble was not over what Byrn told the Wilsons about his killing a man in the east, as he never had any serious trouble there. He says it was the result of Byrn's insane jealousy of his wife; that Byrn became jealous of Crews when the latter first came from the east a year ago and went to the former's ranch in Lake county.

Crews left Lake county and came to Wilsons on that that account. Byrn came down from Lake county four days before the shooting.

Mrs. Byrn had been at Wilson's for several days before that.

When Byrn arrived Crews says he seemed displeased to find him there.

At the time of the shooting they had talked the matter over on a log in the woods. Byrn put his hand in his hip pocket. Crews claims he was previously told by Mrs. Byrn that her husband carried a weapeon and was liable to commit a crime. His uncle kept advancing on him and he drew a revolver and fired. He says he did not know at the time that Byrn had been hit.

As to Silver.

WASHINGTON, July 9.—Chairman Bland of the coinage committee introduced a resolution making the silver bill a special order for Monday, consideration to be continued from day to day till finally disposed of. The committee on rules agreed to a part of the resolution setting apart Wednesday and Thursday for consideration of the silver bill.

A Daisy Jail.

CHICO, July 9.—Henry Jerrard, who had been in the town jail since Thursday for stealing a horse in Siskiyou county, and who sold it to a man at Mogado, this county, escaped last night by digging through the floor of his cell with a common table fork.

TROUBLE APPROACHING

Rumors That More Pinkerton Men

ARE HEADED FOR HOMESTEAD

Workmen Take Extra Precautions, and Say They Will Defend Themselves.

HOMESTEAD, July 9.—The Homestead iron and steel workers to-night issued an answer to the Carnegie company statement. It says, in part, that the working men at Homestead have no desire to dictate the wages they shall receive, but see no good reason why they should not exercise a privilege of discussing with the employer a rate of co-operation. The workmen now, as they always have been, are prepared to meet any representative of the company and discuss the scale. If the conference already held failed to bring about a settlement it cannot be said this was a fault of the workmen. An attempt was made to lead the public into the belief that the number of men affected by the reduction were few. It is necessary to impress on the public mind the three distinct propositions in dispute. While all the propositions don't affect all of the Homestead workmen, a few of the 3800 employes escape without being affected. It is stated by the company that it is not their desire to reduce their workmen below others. The cost of production to Carnegie at Homestead is decidedly in favor of the company as compared with other mills of that character. There are none whom regret the lamentable occurrences of the past few days than those who Carnegie charged with having been instrumental in bringing them about. We are willing to allow the public to judge after the evidence is all in, whether the charge is true. Until then we prefer to forget our recent sad experience.

A startling report was in circulation at 11 o'clock tonight that Bob and William Pinkerton, in command of 800 men, armed with Winchesters, were on the road to Homestead via the Wheeling division of the Baltimore & Ohio road.

The report alarmed the mill men and a large array of scouts were dispatched to make an investigation. The story was to the effect that the purpose was to surprise all hands by a quick forced move over the hill to Fort Frick, and it was said that men who had been collected in the surrounding towns were being mobilized. The matter has not been verified and may be like the groundless rumors of the past few nights.

The men are considerably agitated over the publication of their making preparations for warfare. They deny absolutely that they have any intention to use dynamite or to blow up property on the approach of the hostile force, and resent it as an imputation that they are anarchists.

The report that two cannons are on the way to them they also deny absolutely, as they did the statement that they were were fortifying the mill and property there to resist attacks.

$4,000,000.

GO UP IN SMOKE AT ST. JOHN, N. F.

Nearly 1000 Buildings Destroyed and 15,000 People Rendered Homeless.

ST. JOHNS, July 9.—The fire which broke out here yesterday is still burning, 600 buildings having already been destroyed, and the loss will reach $4,000,000.

Fifteen thousand people are homeless and destitute.

All the finest buildings in the town are destroyed, and it is thought that many lives are lost.

The English cathedral, considered to be the finest piece of gothic architecture on this continent, and which has been building for fifty years, is ruined.

The people and the fire department are paralyzed, and block after block was burned with no attempt made to save them.

Thieves entered deserted houses and looted them.

Fire this evening broke out among the fine residences in town, and it looks as if the whole city would be destroyed.

Halifax, N. S.—At 7.40 tonight telegraphic communication with St. Johns was restored.

The first dispatch received after the wires were again in working order stated that the loss by fire was placed at $4,000,000.

The Usual Woman.

NEVADA, July 8.—At the town of Washington early this morning William Searl was stabbed to death by a man whose name is not yet known here. Searl had his slayer down and was beating him when the cutting occurred. The trouble was about a woman of bad repute.

Union Services.

The union services being held Sabbath evenings at the Advent church are a healthful sign of the unity of purpose and fellowship existing among the various branches of the Christian churches of Fresno. They tend to foster the spirit of Christian union among the people, which is one of the healthful signs of modern Christendom. Christianity founded on brotherly love will commend itself to the judgment and consciences of men the more there is of this brotherly spirit in the churches. Nothing will do more to show that the churches are Christian first and sectarian afterward than their hearty support of all union effort.

The promoters of the McKinley tariff mean it to push forward the policy of America for Americans. One method of realizing it was to keep all work within their own dominions. The country was to be made self-supplying: what could be produced at home was not to be bought abroad. That was the key-note of the McKinley scheme, and it is working out the idea of its designers with the precision and effectiveness of a machine.—Sheffield (England) Daily Telegraph.

WHITEWASH cannot be laid on thick enough to cover the rottenness in the municipal affairs in this city. Machines enough cannot be set up nor material enough furnished to do the job.

THE office and material of the Reedley Exponent was burned on the Fourth of July, but the paper appeared as usual on Thursday, and will have a new office and outfit in the near future. Brother Jones is evidently built on the right plan to succeed in running a country newspaper.

A PAPER of marked interest by Mrs. French Sheldon, the daring American lady who penetrated Africa as far as Kilimanjaro, is a feature of the July Arena. It is the first paper written by Mrs. Sheldon since her return from the wilds of Africa, and is handsomely illustrated by pictures made from photographs taken by her when in the heart of the dark continent.

"THE Man at the End of the Table" is authority for the statement that thirty-one Fresno county orphans are being cared for at the Good Templars' orphans' home at Vallejo. To this institution the Good Templars of Fresno last year contributed $100, or about $3 each for the orphans which the county has sent there. Fresno county is rich enough, and liberal enough in some things; and ought to donate a handsome sum annually to an institution which is doing such a generous and noble work as the orphans' home at Vallejo. That $100 donation ought to be multiplied by ten.

THE damage done to surrounding property by the frightful explosion at the California powder works yesterday near Berkeley forcibly illustrates the necessity of placing new safe-guards around this dangerous industry. The storing of immense quantities of giant powder in a locality that is used for the habitation of man or is suitable for that purpose, should be prohibited. Lonely islands or desert places are the proper localities for an industry that is a constant menace to property and human life. The storage of these explosives should also be more strictly regulated.

THE civil and military authorities of this country are sufficient to afford protection to the lives and property of citizens. The hiring of armed bodies of private citizens to suppress riots is a growing evil that demands speedy suppression. Every citizen has a right to demand and receive protection from the constituted authorities, and these should be the means looked to by citizens of every condition and occupation. The hired fighter is a comparatively new institution, but he has been tried long enough to demonstrate that he is not a desirable acquisition.

A LEADING high tariff organ finds itself in an extremely embarrassing condition. It does not and cannot deny that the reduction of the wages of the labor employed by the great Carnegie iron and steel trust is a direct and conspicuous result of the operation of the McKinley law and a complete refutation of the pretense that the tariff protects the workmen as well as the trusts that employ them.—Merced Express.

It is true that the McKinley bill reduced the duties on iron and steel products, but as the Democrats claim that they should be still further reduced, their complaint that McKinley has caused a reduction in wages is in the nature of a knock-down argument to their own policy.

THE Expositor professes to believe that THE REPUBLICAN is not in a position to protest against the fusion of Democrats with the People's party in certain eastern states, because the Republicans of this county have indorsed certain candidates on the county ticket of the People's party. THE REPUBLICAN does not look at the matter in that light. The Democratic party has nominated for president the most conspicuous friend of the Wall street gold interests in the United States. The object of the proposed fusion is to carry the votes of the states in which it is made for the electors of the People's party, thereby throwing the election of President into the Democratic house of representatives and securing the election of Grover Cleveland. In return for this the People's party is to be given a majority of the state offices and the political patronage which they control. To put this gigantic political job and complete surrender of the principles of national politics on the same plane with the indorsement of a candidate or two for county offices is simply preposterous.

BEET SUGAR.

The three large beet sugar manufactories at Alvarado, in Alameda county; Chino, in San Bernardino county, and Watsonville, in Santa Clara county, says the Chronicle, have sent estimates to the office of the local collector of internal revenue upon which an appropriation for the bonus offered by the government will be based.

The aggregate acreage of the three is 9814, all in growing beets. The refineries expect to turn out 318,000 pounds of sugar every twenty-four hours and will work night and day. The estimate of the total output is 37,000,000 pounds, upon which the government will pay a bounty of 2 cents per pound, or $740,000. The run will last from 70 to 80 days, and the government's agents will be present every moment and weigh every pound of sugar turned out.

Last year a bounty was paid on 8,175,438 pounds of sugar, so the probable increase will be nearly 29,000,000 pounds. A force of 307 men was employed last year, while this year the force of men will be more than doubled, corresponding with the increased acreage, which is 9814, as against 4192 last year.

Where can there be found a more striking example of a valuable industry promoted by protection than in the case of beet sugar? When in a single state the output can increase in one year from 8,000,000 pounds to 37,000,0000 pounds, with certainly no increase in the cost to the consumer, and the employment of a large amount of labor, it is a very strong argument for the McKinley bill.

California, too, is only on the verge of beet sugar production. Her output bids fair to increase in geometrical ratio until she can supply the needs of the entire United States, if not other countries as well. What answer can the free trader make to the principle of protection as exemplified in the increase of the beet sugar industry in California in a single year? For once, we fancy, he cannot find an economic fallacy to fit the situation.

THE established price for architectural work in San Francisco and generally on the coast is 5 per cent for plans, specifications and supervision of construction, or 2½ per cent for plans and specifications alone. When the Triangle of this city explain why they have voted to pay Architect Curtis 3½ per cent for plans and specifications for a high school building, they will then be in a better position to claim that their determination to build the high school is due solely to a desire to follow the letter of the law. The talk about being able to get the superintending of construction done for less than 2½ per cent is a contemptible subterfuge. If true that it can be done for less, that is no excuse for paying an exorbitant price for plans and specifications.

DURING the recent strike of the brakemen on this division THE REPUBLICAN has been unable to reach its readers at Selma and other points south by the morning freight—the only means available under the present time schedule. Now that trains are running as usual it hopes that nothing further will occur to interfere with the universal desire in those localities to get THE REPUBLICAN at the earliest possible hour.

Bad Blood

Impure or vitiated blood is nine times out of ten caused by some form of constipation or indigestion that clogs up the system, when the blood naturally becomes impregnated with the effete matter. The old Sarsaparillas attempt to reach this condition by attacking the blood with the drastic mineral "potash." The potash theory is old and obsolete. Joy's Vegetable Sarsaparilla is modern. It goes to the seat of the trouble. It arouses the liver, kidneys and bowels to healthful action, and invigorates the circulation, and the impurities are quickly carried off through the natural channels. Chas. Lee, at Beamish's Third and Market streets, S. F., writes: "I took it for vitiated blood and while on the first bottle became convinced of its merits, for I could feel it was working a change. It cleansed, purified and braced me up generally, and everything is now working full and regular."

JOY'S Vegetable Sarsaparilla

Many druggists have a cheaper Sarsaparilla than Joy's. As they make more on it, they'll try to sell you it. Insist on Joy's.

Snow, Fred Wiedey, Gus Winkler and Julia Strine, defendants.

You are hereby required to appear in an action brought against you by the above named plaintiff, in the Superior Court of the County of Fresno, State of California, and to answer the complaint filed therein, within ten days (exclusive of the day of service) after the service on you of this summons, if served within this County; or if served elsewhere, within thirty days, or judgment by default will be taken against you according to the prayer of said complaint.

The said action is brought to obtain a decree for the foreclosure of a certain mortgage, described in the complaint and executed by the defendant William Fisher, to the defendant J. W. Short on the 23d day of September, A.D. 1887, to secure the payment of four promissory notes, set out in said mortgage and set out and described in the complaint herein; and alleging that said notes thirdly and fourthly set out and described in said mortgage and in said complaint have not been paid, and there is now due and unpaid on said two notes the sum of $3160.49; that all that part of lot seven [7] and eight [8] in block three [3] of Villa Homestead Tract, according to the map of the said tract on file and of record in the office of the County Recorder of Fresno county, not released from the lien of said mortgage, being lots three [3] and four [4] in block "C," and lot one [1], two [2], three [3], four [4], eight (8), nine [9], ten [10], eleven [11], twelve [12], thirteen [13], fourteen [14], fifteen [15], sixteen [16], seventeen [17], eighteen [18], nineteen [19], and twenty [20] in block "D" and lots one [1] two [2] three [3], four [4], five [5], six [6], seven [7], eight [8], nine [9], ten [10], seventeen [17], eighteen [18], nineteen [19] and [20] in Block "E," and lots one [1], two [2], five [5], six [6], eleven [11], twelve [12], thirteen [13], fourteen [14], fifteen [15], sixteen (16), seventeen [17] eighteen [18], nineteen [19] and twenty (20) in block "F" in Fisher's Addition to the town of Fresno, according to the map of said addition now on file and of record in the office of the County Recorder of the county of Fresno, State of California, may be sold and the proceeds thereof applied to the payment of said two notes, thirdly and fourthly, set out in said mortgage and in the complaint; and in case such proceeds are not sufficient to pay the same, then to obtain an execution against said defendants, William A. Fisher and J. W. Short, for the balance remaining due; and also that the said defendants and all persons claiming by, through or under them may be barred and foreclosed of all right, claim, lien and equity of redemption and interest in and to said mortgaged premises, and for other and further relief.

And also that the plaintiff have judgment for the sum of Five Hundred Dollars ($500) its attorney's fee to be allowed plaintiff in this action; and that said attorney's fee be paid out of the proceeds of the sale of said property; and for costs.

And if you fail to appear and answer said complaint as above required, the plaintiff will take default against you and apply to the court for the relief demanded in said complaint.

Given under my hand and the seal of the Superior Court of the County of Fresno, State of California, this 4th day of February, in the year of our Lord 1892.

Order of Adjudication of Insolvency.

IN THE SUPERIOR COURT OF THE COUNTY of Fresno, State of California.

In the matter of W. J. PRATHER, an insolvent debtor.

W. J. Prather having filed in this court his petition, schedule and inventory in insolvency, from which it appears that he is an insolvent debtor, the said W. J. Prather is hereby declared to be insolvent. It is hereby ordered that Sheriff be and he is hereby appointed receiver of the property of said insolvent, and that upon his giving a bond to the people of the State of California, conditioned as required by law, and in such sum as the court may order, and qualifying, he take charge and possession of all of the estate, real and personal, of said W. J. Prather, insolvent debtor, whatsoever and wheresoever situate, except such as may be by law exempt from execution, and of all his deeds, vouchers, books of account and papers and to keep and care for and dispose of the same until the appointment of an assignee of his estate. All persons having the same or any part thereof (including the Sheriff of the county of Fresno) in his or their possession are hereby directed to deliver said property to said receiver, and all persons owing money to said insolvent are hereby directed to pay the same to said receiver, and that said receiver keep the said property, or the proceeds thereof, till the further order of this court. And all persons are hereby forbidden to pay any debts to said insolvent, or to deliver any property belonging to such insolvent to him or to any person, firm, corporation or association for his use, and the said debtor is hereby forbidden to transfer or deliver any property until the further order of this court, except as herein ordered.

It is further ordered that all the creditors of said debtor be and appear before the Hon. S. A. Holmes, Judge of the superior court of the county of Fresno, in open court at the court room of said court, in the county of Fresno, on the 16th day of July, 1892, at 9 o'clock a.m. of that day, to prove their debts and choose one or more assignees of the estate of said debtor.

It is further ordered that this order be published in the Fresno Morning Republican, a daily newspaper of general circulation, published in the county of Fresno, as often as the said paper is published before the day set for the meeting of creditors.

And it is further ordered that, in the meantime all proceedings against said insolvent be stayed.

Dated June 10, A.D. 1892.

ENERGETIC LADIES.

The World's Fair Association Does Good Work.

THOUSANDS OF FRUIT CARTONS

Fresno County to Be Advertised by Free Distribution of Samples of Her Products.

The attendance at the meeting of the Ladies World's Fair association in the Hughes hotel parlor yesterday afternoon was not so good as that on the first meeting. A good many ladies who attended the first meeting were not there, but there were several new faces from outside the city, and this was hailed as an indication that interest in the movement is far from waning.

The absence of so many people from the county on their summer vacation and the very warm weather were responsible for the slightly diminished attendance.

Even Madamoiselle Arsenic, who has sweltered under the torrid sun of India and who has been broiled like the tenderloin of sole on the Egyptian pyramids applied her fan vigorously and complained of the heat.

In the absence of Mrs. Thomas E. Hughes the president, Mrs. J. A. Fink Smith presided, Mrs. Wiley J. Tinnin officiating as secretary.

FREE FRUIT AND RAISINS.

Miss Nellie Boyd read a list of the ladies and gentlemen who had subscribed quantities of raisins and dried fruits for free distribution at the World's Fair.

The following donation of raisins were reported by the annexed committee.

Mrs. Hughes 800 pounds, Mrs. Fernald 175, Mrs. Roff 1410, Mrs. Hatch 2000, Miss Nellie Boyd 3670.

Among the larger individual donations were the following: F. H. Hall 1000 pounds, Thos. E. Hughes 1000, Alexander Gordon 500, H. D. Colson 500, W. M. Williams 2000, Mr. A. D. Barling 500, J. N. Pugh 100.

PUBLIC-SPIRITED DAMES.

Miss Boyd reported that she had visited all the Danes in Central colony and all had cheerfully subscribed raisins in quantities of from 20 to 50 pounds each. She was sorry to say that she could not report cases of similar liberality in the case of some of the Americans she had visited.

THE FOWLER BRANCH.

Mrs. Captain Norris of Fowler, reported that she and her associates had formed a branch society about a week ago. The second meeting was not so enthusiastic as the first, and a good many ladies who attended the first meeting were absent from the second. They felt that it would be better not to continue with the branch, but to join the main body in this city. She had done a little soliciting for raisins and had received a donation of 500 pounds from one grower.

Mrs. J. A. Fink Smith of the committee on jelly jars reported that they had visited the World's Fair commission, and the commission had agreed to pay bills for this and other preliminary purposes to the extent of $500.

The committee was late in making arrangements to secure jelly and fruit jars. Everything desirable in Fresno and San Francisco had been secured. So far as form, size and quality of the glass is concerned there is very little difference. The glass factories have months of work ahead of them.

Mrs. L. J. Dore of West Park presented a long list of names of ladies of West Park who had promised to donate raisins, dried fruits and jelly.

Mrs. Smith reported that she had purchased twenty dozen jelly glasses at 70 cents per dozen. They were stored in the office of the World's Fair commission, where such of the ladies who wished to use them might get them. She reported that Mrs. Thomas E. Hughes was in San Francisco looking for jars and that she had telegraphed Mrs. Smith that it would be better to buy them.

The treasurer was instructed to pay for the jars and Mrs. Smith was requested to buy the remaining ten dozen.

The committee was also authorized to purchase some of the better grades of glasses provided that the price was not too high.

The ladies were allowed the privilege of deciding whether they would use the quart or two quart packages.

Mrs. W. D. Crichton reported that many ladies had proffered to the use of the association paintings executed by themselves for exhibition in the Fresno county department at the World's Fair.

Mrs. M. B. Stuart announced that the office of the World's Fair commission would be open from 9 in the morning until the close of business hours each day, and ladies desiring to take jars home could call between those hours and leave their names on the register together with a statement of the number of jars taken by each.

A DAMPENING REPORT.

It was stated that Mr. Smith of Temperance colony had told one of the ladies that there would be no raisins in that colony this year, and that it would not be of any avail to send a committee thither to solicit donations of dried fruit and raisins for the exhibit.

One of the ladies explained that probably Mr. Smith was feeling a little blue, and had probably exaggerated the ravages of the coulure.

Miss Nellie Boyd suggested that every member of the association should constitute herself a committee of one to act for the advantage of Fresno county, not in raisins or dried fruit alone, but in every other way.

A letter was read from J. C. Cottle of Sanger, declining the appointment of vice president for that place. Mrs. Cottle declined, owing to the pressure of other business upon her time.

Mrs. E. T. Maxwell of Kingsburg reported the organization of a branch in that place, with herself as president and Mrs. L. Park as vice president. She asked for information as to jars, and the secretary was instructed to write to Mrs. Maxwell, giving her the required information.

The secretary was instructed to write to Mrs. Woods and Mrs. Parkhurst of Sanger, appointing them as a committee to carry on the work declined by Mrs. Cottle.

ITEMS OF INTEREST.

The secretary read extracts from the last bulletin issued from the San Francisco headquarters of the World's Fair commission. It was announced that the commission would shortly begin a tour of the state for the purpose of personally conferring with interested parties. Attention was called to the magnificent opening afforded by the women's building, which is to constitute a part of the Chicago Fair.

WORKS OF HOME ART.

Fancy needlework, paintings, trees, plants, etc. are specially solicited from the ladies.

On the subject of cartoon boxes Miss Boyd said that the ladies would in all probability have to buy the boxes out of the $500 appropriated by the county commission. It would take considerable money to buy cartoons for the tons of raisins that will be given away. The question was as to the quantity which each cartoon should contain. The opinion seemed to be that half pound or quarter pound boxes would be about the right measure.

Mrs. Smith did not think that the raisins could be packed to advantage in less quantities than half pounds.

Miss Boyd said that the expectation was that they would be packed in Chicago at the fair.

Mrs. Smith recommended that the very largest raisins that dropped off in the sweat boxes should be used for the cartoons.

Mrs. Winchell suggested that the packing should be done by experts.

Miss Boyd called attention to the urgent necessity of securing some space in which to store donations of dried fruits during the season.

CARTOONS BY WHOLESALE.

Mrs. Norris asked about the style of the boxes, and Mrs. Smith advised that boxes could be got much more cheaply when ordered all at once from the factory in San Francisco than when ordered here in small lots.

It was decided that the cartoons should contain one-half pound of raisins or dried fruit.

Mrs. Barling moved that Mrs. Winchell, Miss Boyd and Mrs. Parkhurst be appointed a committee to confer with Secretary Tinnin concerning the boxes prior to Mrs. Tinnin's departure for San Francisco.

Miss Boyd declined to serve and Mrs. Edwards was appointed in her place.

INFORMATION WANTED.

Mrs. Whitson of Selma asked by letter for information as to the jars. She asked that the label "Selma, Fresno County," should be allowed on the jars of jelly and fruit in the World's Fair.

Miss Boyd did not believe it would be right to allow any labels other than those of Fresno county.

Mrs. Harris moved that the commission furnish Fresno county labels with a blank space for the locality, etc., which could be filled out afterward. She called attention to a luscious fig marmalade and suggested that that should be included in the exhibit.

It was explained that all kinds of figs and other dried fruits, jellies, marmalades, etc., should be solicited for the exhibition.

The meeting then adjourned.

THE DEPUTY MATTER.

A SUIT BROUGHT TO TEST THE QUESTION.

A Statement of Facts Submitted Yesterday to Judge Harris.

A complaint and agreed statement was filed in the superior court yesterday by W. S. Badger against T. P. Nelson.

Mr. Badger is a deputy in the county clerk's office and Mr. Nelson the treasurer of this county. The object of the suit is to decide the mixed deputy question—rather, to ascertain whether there is not a way for the county officials to employ necessary deputies without conflicting with the recent decision of the supreme court in the case of Dougherty against Austin.

The complaint begins with reciting that T. P. Nelson, the defendant, is treasurer of Fresno county and A. C. Williams, the county clerk.

For many months past, continues the complaint, the county clerk has had a large and increasing body of public work to do. For this purpose he has heretofore been allowed a certain number of deputies, who have been paid out of the county treasury for the performance of said work.

Under and by reason of the recent decision of the supreme court in the case of Dougherty vs. Austin these deputies could no longer be allowed to the county clerk for the performance of said clerical work in his office, and it is further alleged that the county clerk could not do all such work personally.

On July 5, 1892, the board of supervisors in regular session, recognizing the foregoing facts and the public necessity therefor, as set forth further on, entered into a contract with said W. S. Badger, by which the board employed Badger to perform certain clerical work in the office of the county clerk.

Badger duly entered upon the performance of said work in accordance with the contract, and thereafter on the 8th of July presented a claim to the amount of $7.00 to the supervisors for his services, which were duly allowed by the board.

The auditor of the county duly issued to Badger a warrant upon the county treasurer for said sum, which warrant was made out in legal and proper form.

The warrant was presented by Badger to T. P. Nelson, the county treasurer, who refused to pay it on the ground that the warrant was not legally and properly issued, in that the board of supervisors had no power to employ said W. S. Badger, or to cause said work to be performed in the office of the county clerk.

The complaint alleges that it is necessary, for the public benefit and for the best interests of the people of the county, that said clerical work should be performed in the clerk's office, and that unless persons are employed by the board to perform such work the business of the county will suffer, and it will be impossible to carry on the public work of this county.

There is no provision of law now existing by which this work can be performed, and a public exigency has arisen by which, if the said work is left undone, the public business will not be performed, and the public interests of the county will suffer great and material damage.

It is therefore prayed that the court determine the legality of the employment of said W. S. Badger and the validity of the warrant issued by the auditor and presented to the treasurer, and that judgment be issued accordingly. The complaint is signed by both Treasurer Nelson and Deputy Clerk W. S. Badger.

A NEW DEAL.

A Growing Business to be Incorporated.

The announcement in today's REPUBLICAN of a great sale at the Poor Man's Friend store, 1027 and 1029 I street, to begin on Wednesday, July 13th, means that the owners have decided to raise what cash they can on their stock and go ahead with the incorporation of the business. The present stock will be slaughtered at any figure, and the people of Fresno county should not miss this opportunity to get standard goods at less than half price. *

Thomas Yost is prepared to frame pictures in any style you may desire. *

All straight whiskeys at the Bodega. *

Good white wine vinegar for sale at Barton Vineyard. *

Best finished cabinet photographs only $2 per dozen, for a short time, at Mrs. Burt's gallery, J street, opposite Barton opera house. *

All persons wishing the fine Aristo finish cabinet photos for $2 per dozen, please call between now and July 20th, as I close my gallery then for the season. MRS. BURT. *

FRESNO'S SOCIAL SWIM

Our 150 Interested in the World's Fair.

SHOULD BE NO ART EXHIBIT

Camping Trip of Our Society Leaders — Comments on the Chaingang.

The latest fad of the female members of our 400 is to interest themselves in World's Fair matters, and to attend regularly each meeting of the ladies' auxiliary. There are Mrs. W. D., little Sunshine, myself and others, who are just desperately interested, and determined that the most remarkable county in the United States shall have an exhibit of which its citizens may be proud, etc. Some of the lazy men who are doing least in this matter are inclined to make fun of us women; but let them visit one of our meetings, and they will be surprised at the business like manner in which they are conducted. The ladies' auxiliary has already accomplished a good deal, considering the short time it has been in existence, and is setting an example in public spirit and enterprise the men might do well to follow.

* * *

Only one suggestion was made at yesterday's meeting that did not seem to me particularly good one, and that came from Mrs. W. D. C. She reported that several ladies had offered to loan the association, for exhibition at Chicago, chromatic nightmares painted by their own fair hands. Heavens, let there be no art department in our exhibit! I believe I am fairly well acquainted with the work on canvas of my sisters in this city, and am not hypercritical in stating that it is beneath condemnation. If the pictures were put anywhere near the raisins they would take the bloom off of the latter, and that is something we dare not have happen. It is not my desire to discourage those who are ambitious enough to turn their minds to something elevating, instead of being content to spend their lives in small talk and picking out materials for dresses. Let them continue their painting and improve, but let them be careful not to permit such an odd idea that their work is fit to be shown at the World's Fair to take possession of them.

Fresno must have an exhibit representative of its industries and resources. There should be a small but good school exhibit, for persons desiring to move to another locality always inquire about its educational facilities, and a number of large and well executed photographic views of our vineyards, orchards and mountain scenery (particularly of the Kings River canyon) should be displayed. The introduction of anything trashy will mar our exhibit. If the pictures were merely to be viewed by the pork packing population of Chicago it might be well enough to send on an art display, but there will be at the Windy City people of culture from all parts of the world and—well, they should be treated with some consideration. What a shock it would be to come across a Fresno county painting after viewing the magnificent display by the best painters in the world in the fine arts building a few hundred yards distant!

There being a modern matron or two in Fresno I thought I would reproduce the following verses, which Town Topics dedicates to them:

Rather pretty, somewhat gay;
Flirts when her huge lord's away,
Graceful, darling, witty, chic,
Leader of a dashing clique.
Slim and stylish, dresses well,
At a dance by far the belle.
Opera bits the season through,
Patronizes "first nights" too.
Rides on racing—sure to go
And to bet by no means slow;
Knows the good points of a horse—
Is a clever whip of course.
Takes a cocktail ere she'll dine,
Quite reckons a "hearty" wine.
After dinner (entre nous)
Smokes a cigarette—or two.
Always jolly, laughs at care,
Speech and spirits light as air;
Envy of all maidens free
Is the modern wedded she!

The writer of the foregoing makes only one mistake, that is when he says the modern matron is the envy of all maidens free. He should have written "maidens foolish."

What will we do during the absence of Johnny Colson, Will Guard, Am Hays and Frank Feister? They start for the King's river country tomorrow evening and will stay away a whole month. Thank Heaven, they have decided to take some one with them to chaperone them. Handsome Captain Chisholm has kindly accepted that onerous duty. Poor man, what a time he will have! I have been given a partial list of the things they will take with them by some one to whom Am confided the secret. Some articles in the list will startle my fair readers. Here they are: One gallon of whiskey for mosquito bites, four manicure sets, half a dozen bottles of vaseline, two loaves of bread, four bottles of Anita cream and two boxes of poudre de riz, six bologna sausages, one Swiss cheese, eight pedicure sets, two dozen cans of fruit, one dozen of corned beef, one diary and a jar of pickles.

I passed through the courthouse park recently and saw a sight that must move with indignation and pity anyone possessing a fair share of humanity. I refer to the chain-gang of which I have so often heard but, by some odd chance, have never seen. I felt a tightening at the heart when I saw these men with clanking chains and balls fastened to their legs, as one would fasten a wild animal. These men, I am assured, are not stage-robbers, horse-thieves or murderers, but merely petty offenders, who are serving short sentences because they cannot pay the small fines imposed upon them. Some have been sent to jail because they are "vagrants," others for disturbing the peace, or getting drunk. That men who have been guilty of no greater offenses than these should be so terribly punished, is outrageous. The chain-gang is a disgrace to our boasted civilization and should be abolished.

HAMMOND'S LEG.

It Was of Wood and Could Not Support a Jag.

R. Hammond, a man with a wooden leg, was brought before the recorder yesterday on a charge of drunkenness. He declared that he was never arrested before and was never drunk in his life. He seemed to be an honest sort of a fellow, and the recorder took pity on him and discharged him.

Hammond had taken two glasses of beer to appease an elegant thirst and walked out into the sunshine. The result was as usual. The mercury rose in the thermometer and Mr. Hammond got dizzy. Having only one good leg he was unable to walk a chalk line and was gathered in by a Prohibition member of the police force.

CHILD MARRIAGES.

SOME SENSIBLE REMARKS BY A MOTHER.

She Asks Why Contract Marriages Should Be Legal When the Child is Under Age.

EDITOR REPUBLICAN.—I noticed in your paper a day or two since an account of a marriage by contract—the second one of the kind within a few days—the parties of the last one being one who calls himself a man, or is somewhere between 30 and 50 years of age, and the child he married being 14 years.

As I understand it she was too young to be married without the consent of her parents by any other ceremony but by contract. In business relations of any other kind how long would that contract hold good? Yet by contract that marriage was legal, so that when the mother, in her grief, went to the authorities at law for redress she found there was no redress for her; that the law was against her and on the side of the person who took the child for his wife, away from her mother and her home.

Is it any wonder that the papers are full of divorce cases? How long does that foolish being suppose it will be before his child wife will realize the situation?

As soon as she comes to maturity of thought, which she is sure to do sooner or later; when she is no longer a child, she may awaken to the true condition of her married life. And can she then, if she has the least spark of right principle within her, help feeling indifferent toward one who took advantage of her innocent years to induce her to consent to such a contract.

Time will tell. There is in this universe an infallible law which says, "As ye sow, so shall ye also reap," the law of compensation and retribution and there is no escape from it.

Perhaps this marriage will be as much regretted by himself before he passes off this stage of action, as it may be by his partner, and the worst of it for him will be, there can be no blame attached to anyone but himself, as he was old enough to know what he was doing and she was not.

A man once said his wife was worth $50 a year to him, to blame things to, but he will not even have that consolation.

In looking into the future for him I have no sympathy or pity from whatever may happen, but much for the sad awakening of the wife. I am not an old resident of California, and perhaps when I am may get used to such things, so that I will receive no shock when they happen, but if I do become that much acclimated I shall consider that I have gone downward and not upward, and in this grand state with its progress on every hand, is that possible? I am not writing this for the sake of writing something, but because the mother heart has received a shock, and I wish others to see how dreadful and almost surely will lie the results from such unhallowed marriages.

I have daughters, though fortunate enough to have none so young as the child in question. If I had I should tremble with honest fear for her safety. If it is not too much trouble to you will you quote the article of law upon which such marriages are based? M.W.C.

TARIFF FOR REVENUE

Able Essay by a Newly Made Democrat.

DOWN WITH SHAM PROTECTION

How Labor Could Be Made Available to Compete With Europe and Asia.

The following able essay from the pen of a newly made Democrat is given space in this issue of The Republican, because of its merit and unanswerable logic, and because The Republican is a paper of the people, for the people and by the people. Of course the editor reserves the right to reject any and all communications that do not come up to the standard. A marked copy of this issue will be sent to ex-secretary of state Blaine with a request that he reply to the arguments advanced by "Converted Republican."

If he fails to do this it is feared that the Republican party will lose many votes in Fresno county.

Editor Republican.—A tariff for revenue only is the only constitutional ground for tariff.

I am thoroughly convinced it is the true Democratic doctrine and evinces the very highest mark of American statesmanship. The Honorable Mr. Neal of Ohio who introduced the amendment to the National Democratic platform which was adopted by a large majority will go down to posterity as the guiding star of this age on political economy. We want more of this levelheadedness among our Democratic statesmen.

The Honorable E. Vance of North Carolina in his speech in the United States senate on Sept. 2, 1890, advocated the same doctrine in a masterly and unanswerable argument. He said: "It would equalize the wages which the farmer of the United States has to pay for labor with the wages which his rivals all over the world pay for labor." True as gospel—so true that our Republican opponents can't or will not see it, but will go right on violating the constitution and passing their iniquitous protective tariff laws.

In 1890 $630,000,000 of our exports were the products of agriculture alone to be sold in competition with other countries of cheaper labor. India produced about 2,000,000 bales of cotton at wages of not more than $2 a month, against the American wages of $15 a month.

Russia and India have been large exporters of wheat, consequently they are our greatest competitors in European markets; so to successfully compete with them the wages of farm laborers must be reduced at least two-thirds. They are too high in every department of labor.

Leave off this unsound and unconstitutional hobby of protection to home industries and we will soon have a healthy tone among our wage earners. As it is, under the false theory of protection we are making or trying to make a wage earning aristocracy, a thing never before heard of. Also a class of social agitators that menace the very existence of our constitutional republic.

For instance, the fallacy of protecting our raisin industry with a duty of 2½ cents a pound; for what? to give laborers $1.75 per day and fed three times a day on meat, cake, pies, tea, coffee and wine and all the innumerable goodies, while the Spanish raisin grower gets first class help for not more than 30 cents a day and fed on dried fish, oat meal bread and a glass of Catalan wine, not working 8 or 10 hours a day, but 12 and 14, and a happy and contented class they are.

If we could get rid of the oppressive tariff tax we could soon have the same happy state of labor conditions. If our wage earners don't like the change then let them emigrate and take along their Republican demagogue friends with them. Another great advantage which Hon. Senator Vance and Hon. Roger Q. Mills, as well as others of our glorious Democratic phalanx have demonstrated, is that it would place all of our industries on a level with the rest of the world. No boosting up by bounties or Chinese walls, but we would rise up and flourish by natural causes.

When England established her free trade Cobden doctrine, her agriculture had arrived at a high state of development, in fact her farms were the model farms of the world. Then the products of America, France and Germany were thrown upon her wharves. British agriculture no longer paid, her farms bringing but a normal rent. Two hundred thousand laborers used to farm toil were made available in her mines and manufacturies. The result is that her commerce is on every sea. Her navy fronts every part; her money is begging investments.

With a tariff for revenue only, we would soon take a million of men from the factories and workshops, and develop our agricultural resources at only nominal wages, and drive out of the foreign markets every vestige of India's cotton and wheat, and make these United States the greatest, the happiest and the wealthiest people on the face of the earth, and Wall street the great financial center of the universe.

Converted Republican.

[Democratic papers please copy.]

P. S.—Since writing the above the strike of 4000 men at the Homestead iron and steel works has caused loss of life in open conflict, which would not have occurred if these employes had been scattered throughout the country as agriculturists on a compensation of $5 per month, all the result and effect of protecting home industries. Listen to the admonitions of the Vance and Mills statesmen and all will be well. O. R.

THE PHILOSOPHER.

HE TAKES A CHEW AND TALKS ON THE TARIFF.

The Difference Explained Between a Revenue and a Protective Tariff.

"Under the conditions which confront us," remarked the Mariposa street philosopher, as he cut another chew off his tobacco plug, "and leaving all theories aside I, as a man whose interests are centered in Fresno, a town which has been built up by and depends upon raisin growing for its prosperity, am in favor of a protective tariff. I believe in patronizing home productions and keeping our money at home. There is a duty of 2½ cents a pound on raisins, and this has been sufficient to prevent the foreign product from swamping the market.

"Owing to the cheapness of labor in Spain the producers of that country can afford to pay this tariff on their best layers and sell them in this county at fancy prices.

"'But the consumer has to pay the tariff,' you say. Yes, but the first grade Spanish raisins are consumed by the wealthy who can well afford to buy them and who should be taxed for neglecting to buy the luscious product of Fresno and for sending their money abroad.

"Poor people can't eat Spanish raisins. The Fresno raisin is good enough for them and they don't have to pay a cent's taxation. You may whistle The Rogue's March through my whiskers if it does'nt make me hopping mad to read the drivel that the Examiner and the other lop-sided Democratic organs are printing nowadays on this subject.

"I heard a man say yesterday, who had been driven politically insane by reading this sort of stuff, that the tariff by keeping out foreign goods, enabled the American producers and manufacturers to put the amount of the duty into their pockets in addition to the other profits. Did the Fresno raisin-growers who sold their produce last year for two and a half cents a pound put two and a half cents additional in their pockets because of the tariff? You may use my head for a shoebrush if they did. If it were not for the protective tariff the Fresno raisin man would have to feed his crop to the hogs. Internal competition regulates all these things.

"It is the same in all other branches of industry. The tariff encourages the consumption of home made articles. We complain because the Chinese send their money out of this country to China, and say that they are sucking the life blood out of the nation. Yet the Democratic doctrine of tariff for revenue only aims to have American citizens patronize foreign industries and send their money from home. If we should adopt the Democratic plan and send our money abroad, there would be no demand for the home product and the home industries would be brought to a standstill, and hundreds and thousands of American laborers and mechanics would be thrown upon the streets to starve. Thus instead of wages being increased by the Democratic plan, there would be neither work nor wages for any one.

"You may griddle my gizzard on a gasoline stove if I didn't hear a man with a puffball brain say the other day that free trade would be a good thing for the poor workingman, because he could then buy English goods cheaper than American goods. He could if he had the money, and you may blow me through a foghorn if he'd have a nickle, because there would be no work for him.

"It recalls the old story of the Englishman who bragged that he could buy more for a shilling in London than he could for 'arf a crown in New York. When asked why he hadn't remained in England he replied that he couldn't get the shilling there.

"That will be the case with the American workingman. Under Democratic free trade he would not be able to get the shilling. You may fry my gouty foot in hog's lard if that isn't what it will come to."

ROCKY'S JAG.

HE WAS ARRESTED AS A COMMON DRUNKARD.

But He Secured Bondsmen for Ten Thousand Dollars and is Now a Free Man.

A great indignity was put upon N. E. Rockwell, alias Rocky the bell ringer, yesterday.

He was arrested by a policeman named Johnson on a charge of being a common drunkard. Rocky a common drunkard! 'Tis a base slander. Rocky is an uncommon drunkard if anything, and the charge therefore must be a base fabrication.

He was rudely taken before Recorder Lening yesterday and informed of his rights just like any ordinary vagrant would be. Rocky was naturally very indignant. He demanded a jury trial and threatened to sue the police force for $20,000 damages, the measure of the injuries sustained by his wounded honor.

"I can furnish all the bonds you require," said Rocky loftily. "I can go to the First National bank and get bonds for $10,000 if necessary. How much are my bonds?" he asked.

"Well, seeing it's you, Rocky," replied the recorder, "I'll fix bonds at $10,000."

"Wha-a-at?"

"One of the officers will go with you to hunt up your bondsmen."

Rocky's jaw fell as he went out of the door. In about an hour he returned with two bondsmen who qualified for $20 each. The amount was not made known to Rocky, who believed that his friends had gone security for his appearance to the extent of $10,000.

With a triumphant air he turned toward the judge and exclaimed: "I could just as easily get bondsmen for $20,000 as I did for that $10,000."

He declares that he is still in the fight for constable of the Third township.

The Democrats had a rousing meeting at Madera last night. Addresses were made by Bosses Goucher and Terry and several free trade orators.

MYRTLE VAN TASSEL.

Her Preliminary Examination Held Yesterday Afternoon.

Myrtle Van Tassel, who tried to make a sieve of Al Raymond a week ago, had her preliminary examination before Justice Shannon yesterday on a charge of assault to commit murder.

Four witnesses were examined besides Myrtle and the testimony was rather weak, there being an evident inclination on their part to shield the woman.

William Degen, proprietor of the saloon in which the attempt on Raymond's life took place, testified that he saw the Van Tassel woman enter the saloon and go into the kitchen. A few moments later he heard a shot, but did not see who fired it.

The testimony of R. McDonald and Joseph Maze, proprietor of the lunch counter, was similar to Degen's. Maze took the pistol from Myrtle as she was about to fire again.

Al Raymond stated he did not want to prosecute the woman, and believed anyway that she did not desire to kill him. He testified that she held the pistol with the muzzle pointed toward the stars when she shot. He and Myrtle had been living together as husband and wife for three years.

Myrtle VanTassel, the defendant testified that it was not her intention to kill Raymond; she merely wanted to scare him. She confessed she was "loaded" the day she did the shooting.

The justice took the case under advisement.

A LONG TRIP

To Be Made on Bicycles by Three Fresno Wheelmen.

A party of Fresno wheelmen, consisting of A. H. Greeley, J. F. Ewing and Bruce Craig, started last evening on the longest bicycle ride ever undertaken by Fresno wheelmen.

Their objective point is San Francisco, and they will go there via White's Bridge, Panoche Pass, Hollister and Monterey. From the latter place they will proceed up the coast, visiting all the summer resorts and towns on their line of travel.

From San Francisco they will journey to Sacramento. Returning to the bay city they will come home via San Jose, Santa Clara valley, crossing the Coast range at Panoche Pass. They will then follow the line of the railroad, visiting Modesto, Merced and Madera.

The party expects to get back about July 25th. They are equipped with two suits of clothes, shooting irons and tooth brushes.

World's Fair Association.

The following named persons have become members of the Fresno county World's Fair association by the purchase of a certificate from Mrs. M. B. Stuart, the secretary: F. G. Bochow, J. R. Austin, M. George Secord, William Davison, Dr. Adair, General M. W. Muller, S. C. Crutcher, Louis Scholler, F. Borman, N. P. Justy.

Mrs. Stuart yesterday made her statement to Thomas E. Hughes as representative to the effect that 300 certificates have been sold thus far. There is a balance on account of the association of $70, which will be placed at the disposal of the Ladies' World's Fair association.

Cruelty to Animals.

A man considerably under the influence of liquor drove a horse down J street last night, and when opposite the engine house the animal fell from exhaustion. This enraged the brutal driver and he beat the horse unmercifully in attempting to make it rise, but he could not succeed. He was taken to jail, and will have an opportunity of telling his side of the story in court this morning.

LOCAL BREVITIES.

The grievance committee and the Southern Pacific company have satisfactorily settled the misunderstanding of a few days ago. The company reduced the mileage from 3550 miles to 3450, with which the men expressed themselves satisfied.

Philip Gutbub was granted a decree of divorce from Mary Gutbub yesterday on the ground of cruel and inhuman treatment. Defendant had filed a cross complaint charging Philip with habitual intemperance and cruelty.

Friday evening between 8 and 9 o'clock the residence of Mrs. Connell, corner of Lincoln and Maple avenues, was burned to the ground with all the furniture and clothing of the family, who were absent at the time. The cause of the fire is unknown. There was some insurance on the house and furniture.

George Green and Albert Larsen, convicted of robbery, appeared before Judge Holmes yesterday for sentence. A motion for a new trial was made on the usual statutory grounds and on the ground that new evidence had been discovered. The court granted defendants five days to prepare affidavits and postponed sentence until next Friday morning.

A. D. Barling has resigned his position as paying teller of the Fresno Loan and Savings bank, and will hereafter give his whole time to his vineyard.

Death of Mrs. S. P. Saffell.

Mrs. S. P. Saffell, mother of Fred, Z. O. J. M. and C. A. Saffell and of Mrs. J. I Townsend and Mrs. J. A. Johnson of Red Bluff, died yesterday at her residence on M street. Her daughters came down from Red Bluff and were with her during her illness.

A Remarkable Coincidence.

Some time ago a lady in London wished to write to a friend in America whose address she did not know. The only means she had of procuring the address was to write to a mutual friend, who also lived in America. This she accordingly did, and the letter was duly dispatched. The ship which carried the letter was wrecked and the mails were for a time lost. They were eventually recovered and brought back to England, the letters, now much damaged by sea water, being returned through the dead letter office to the senders. The letter in question was sent back to the lady, who naturally examined it minutely.

To her surprise she found that another letter had become closely stuck to it. Holding up the twofold missive to the light, she deciphered the address on the one which was stuck to her own. It was a letter addressed to the friend to whom she had wished to write, and to discover whose whereabouts her own letter had been dispatched. Her letter thus literally brought back its own answer.—Leeds (Eng.) Mercury.

An Anticipated Pleasure.

A congressman of Mississippi, after making a speech in opposition to the expensive funerals of congressmen, says he received a letter from a constituent saying: "When you die, John, we won't ask congress to pay the expense of your funeral. You've got enough friends down here, John, to give you a respectable burial, and we would take pleasure in doing it."—Charleston News and Courier.

Eggs Are Handled Several Times.

Eggs are gathered by hucksters, who in turn sell them to what the dealers refer to as the shippers, by whom they are sent to New York. After the eggs get here they are again handled by the commission merchants, and finally they reach the grocer, who disposes of them to the consumers.—New York Evening Sun.
